

BEWARE Digital Skimming

- Online skimming is mostly preventable on organizations side, leaving much less for consumers to do in ways of prevention
- Physical Skimming is common through ATMS, while Digital Skimming can be done through anytime you enter your credentials.
- Check your bank account frequently for fraudulent purchases
- Make sure you are using only trusted websites
- You can use a third party like PayPal to avoid putting your credentials into a possibly shady site
- Over 161,000 Cards were compromised in 2022
